

## **RADIATION SAFETY ACT**

### **Chiropractic Radiography Licence Holders**

The Radiological Council licenses chiropractors to permit them to use x-ray equipment in Western Australia. This document provides a list of licensees (including temporary permit holders) for the purposes of "Radiography - Chiropractic (Restricted)" and "Radiography - Chiropractic (Extended)" only, and the expiry date of each licence. Chiropractors holding a "restricted" licence are permitted to use x-ray equipment for plain radiography of the spinal column and pelvis only. Chiropractors holding an "extended" licence are permitted to use x-ray equipment for plain radiography of the spinal column, pelvis, thorax and extremities only.

Chiropractors holding a "Radiography - Chiropractic (Exemption)" licence are not included in this list. This licence purpose is only granted to chiropractors who need to obtain practical experience whilst waiting to sit the next Council chiropractic examination. In such cases the chiropractor must work under the direction and personal supervision of a nominated licensed chiropractor.

The list is generated on the date shown in the footer. It does not include licences that have been issued since this date, but will include some licences which have since expired. Please contact an officer of the Council for further information.
